

March 25, 2008

Mr. Richard Keller
Senior Officer for Scientific and Medical Research Facilities
California Institute of Regenerative Medicine
210 King Street
San Francisco, CA 94107

Dear Mr. Richard Keller,

Stanford University is in receipt of the California Regenerative Institute of Medicine (CIRM) staff review for the Major Facilities Grant Application dated March 20, 2008. We acknowledge the critique of the facility grant application and express our gratitude for your efforts in analyzing the information. Between our Part I and Part II grant applications and the CIRM staff review, we do not have additional information to add to the review process at this time.

Thank you again for your time and effort reviewing our submission. If there is a particular question about our application or the new SIM1 building that I can answer, please do not hesitate to contact me.

Sincerely,

Chris Shay
